

# STAY CONNECTED TO YOUR HOME WHEREVER YOU ARE

[prosmartsystem.com](http://prosmartsystem.com)

# FROM SMART CLIMATE CONTROL TO ADVANCED TECHNOLOGY FOR ACCESS CONTROL

Pro Smart offers smart solutions that fit anyone's budget, improve the convenience and energy efficiency at home thanks to connected, Wi-Fi-controllable devices.

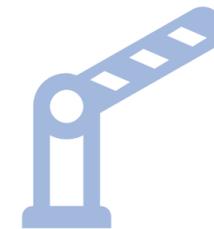

Control your heating and cooling system remotely for maximum energy savings and comfort.

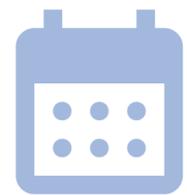

Monitor the current room temperature.

Open and close your doors with one click on your mobile phone.

Easily manage access to your property, office or other premises.

Create different scenarios and personalize to your needs.

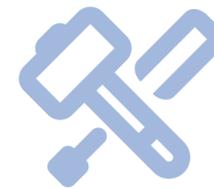

Gain data insights and optimize system work.

Save money and time.

All Pro Smart devices connect directly to your Wi-Fi router. No need for gateway.

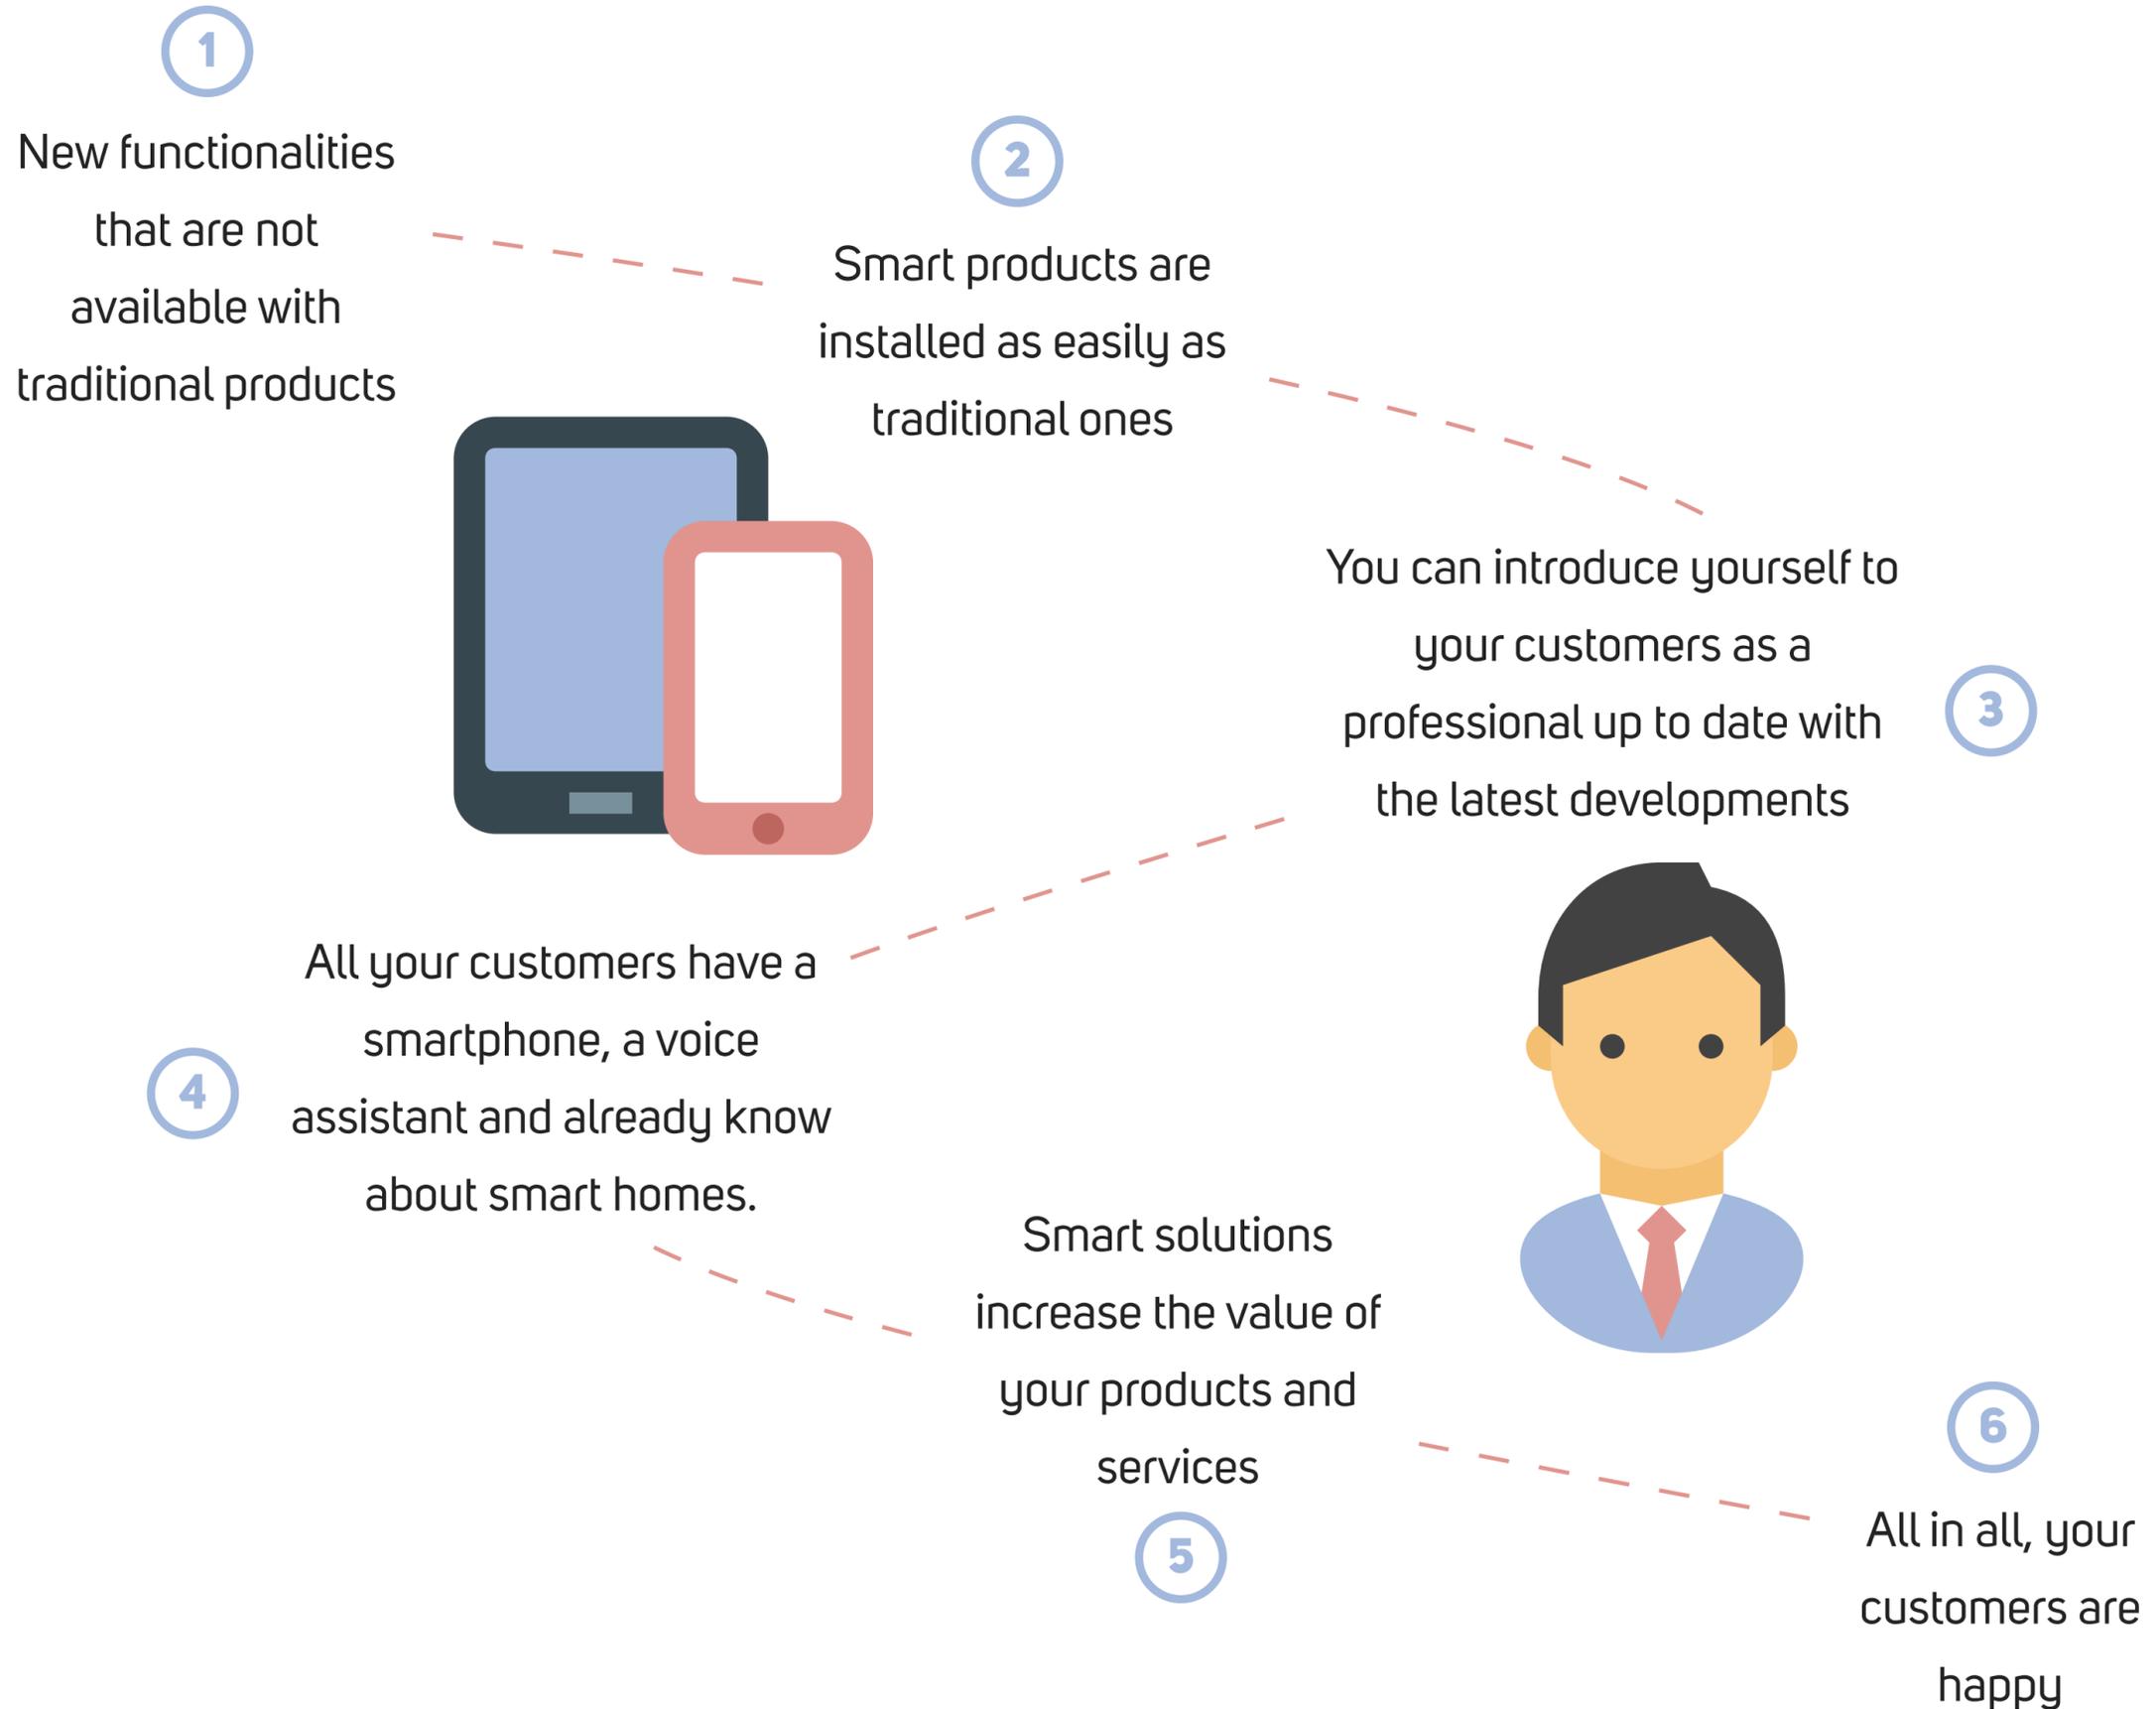

Products suitable for new installation and retrofitting old ones.

Perfect compatibility – fits systems from almost any manufacturer.

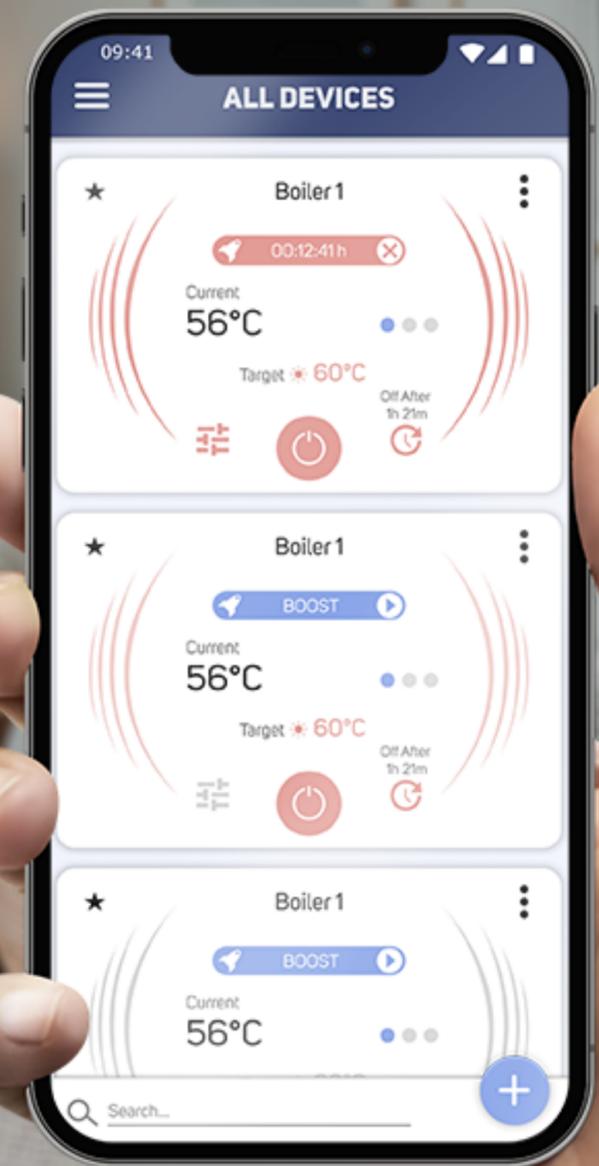

# WHY RECOMMEND CONNECTED DEVICES TO YOUR CUSTOMERS?

# THE PRO SMART APP MAKES EVERYDAY LIFE SMART

- Remote-control over all home systems via a single app.
- App can be used on smartphone, tablet or PC.
- Completely free app
- Add unlimited number of devices to your account
- User-friendly interface
- Data security
- Reliable service
- Translated in your language

By entering the home of our customer, we are fully aware of the responsibility both for data security and reliability of provided app services.

## VOICE CONTROL ENHANCES YOUR EXPERIENCE OF COMFORT

Pro Smart's devices are fully compatible with Alexa, Google Nest and Home Assistant. Use your voice assistant to control your home when your smartphone is not around.

"Hey Google, set the heating to 24 degrees"
