PS THERMO

Effortless control and healthy climate with a single touch

WHAT IS
PS THERMO?

PS THERMO IS A SMART THERMOSTAT THAT ALLOWS YOU TO CONTROL YOUR HEATING AND COOLING FROM YOUR ROOM OR FROM ACCROSS THE WORLD VIA THE BUILT-IN TOUCHSCREEN OR VIA SMARTPHONE, TABLET AND LAPTOP.
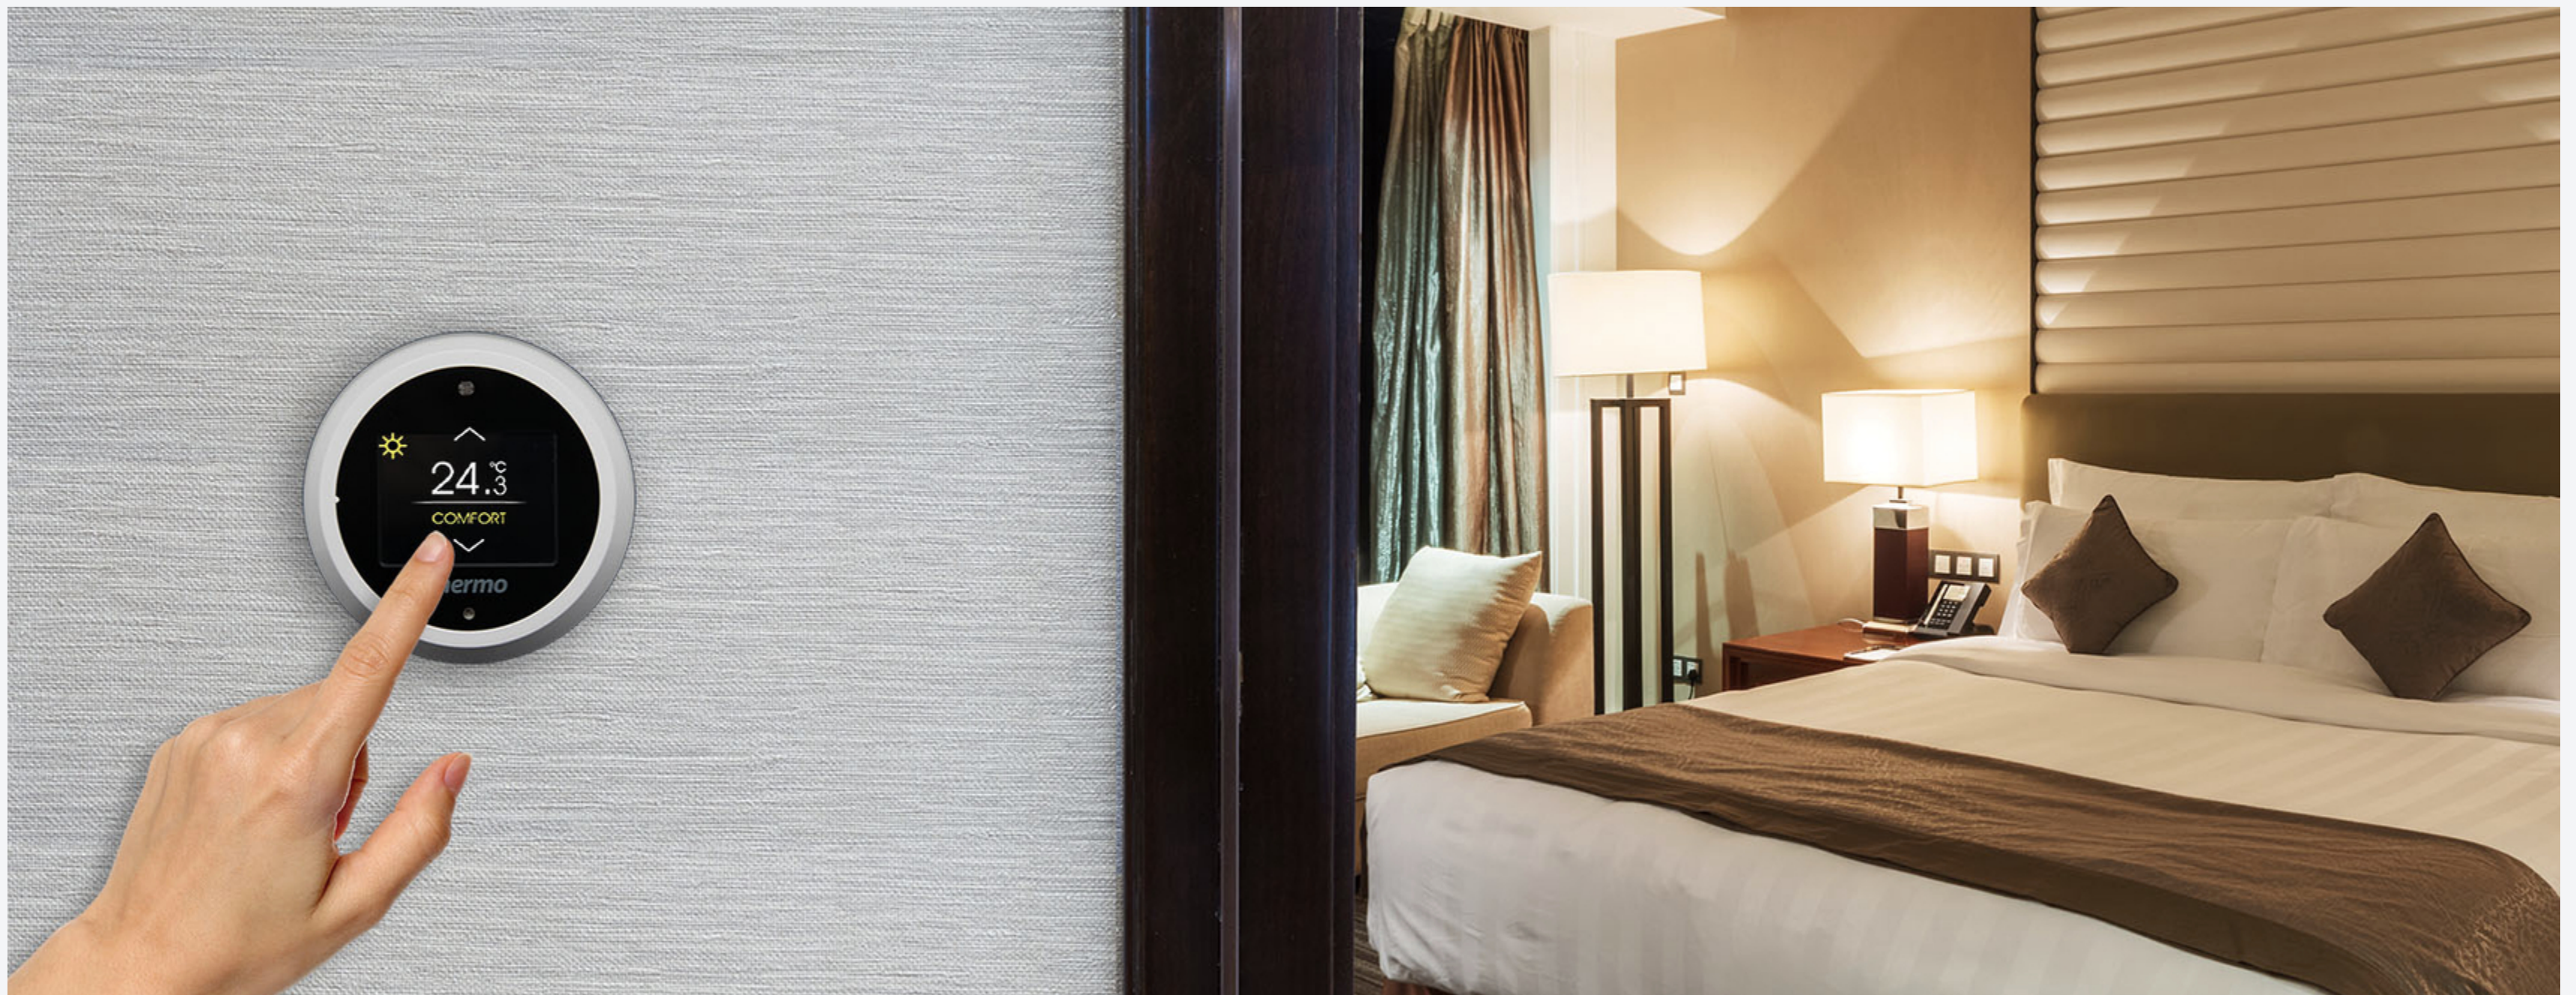

SUPERIOR COMFORT

PS Thermo provides you with real-time control and information. You can set desired temperatures and monitor the current temperature, humidity and system status via the proSmart app.
LOW ENERGY BILLS

Easy programming options that fit any lifestyle. Enjoy perfect climate whenever you are home and save while you are away.
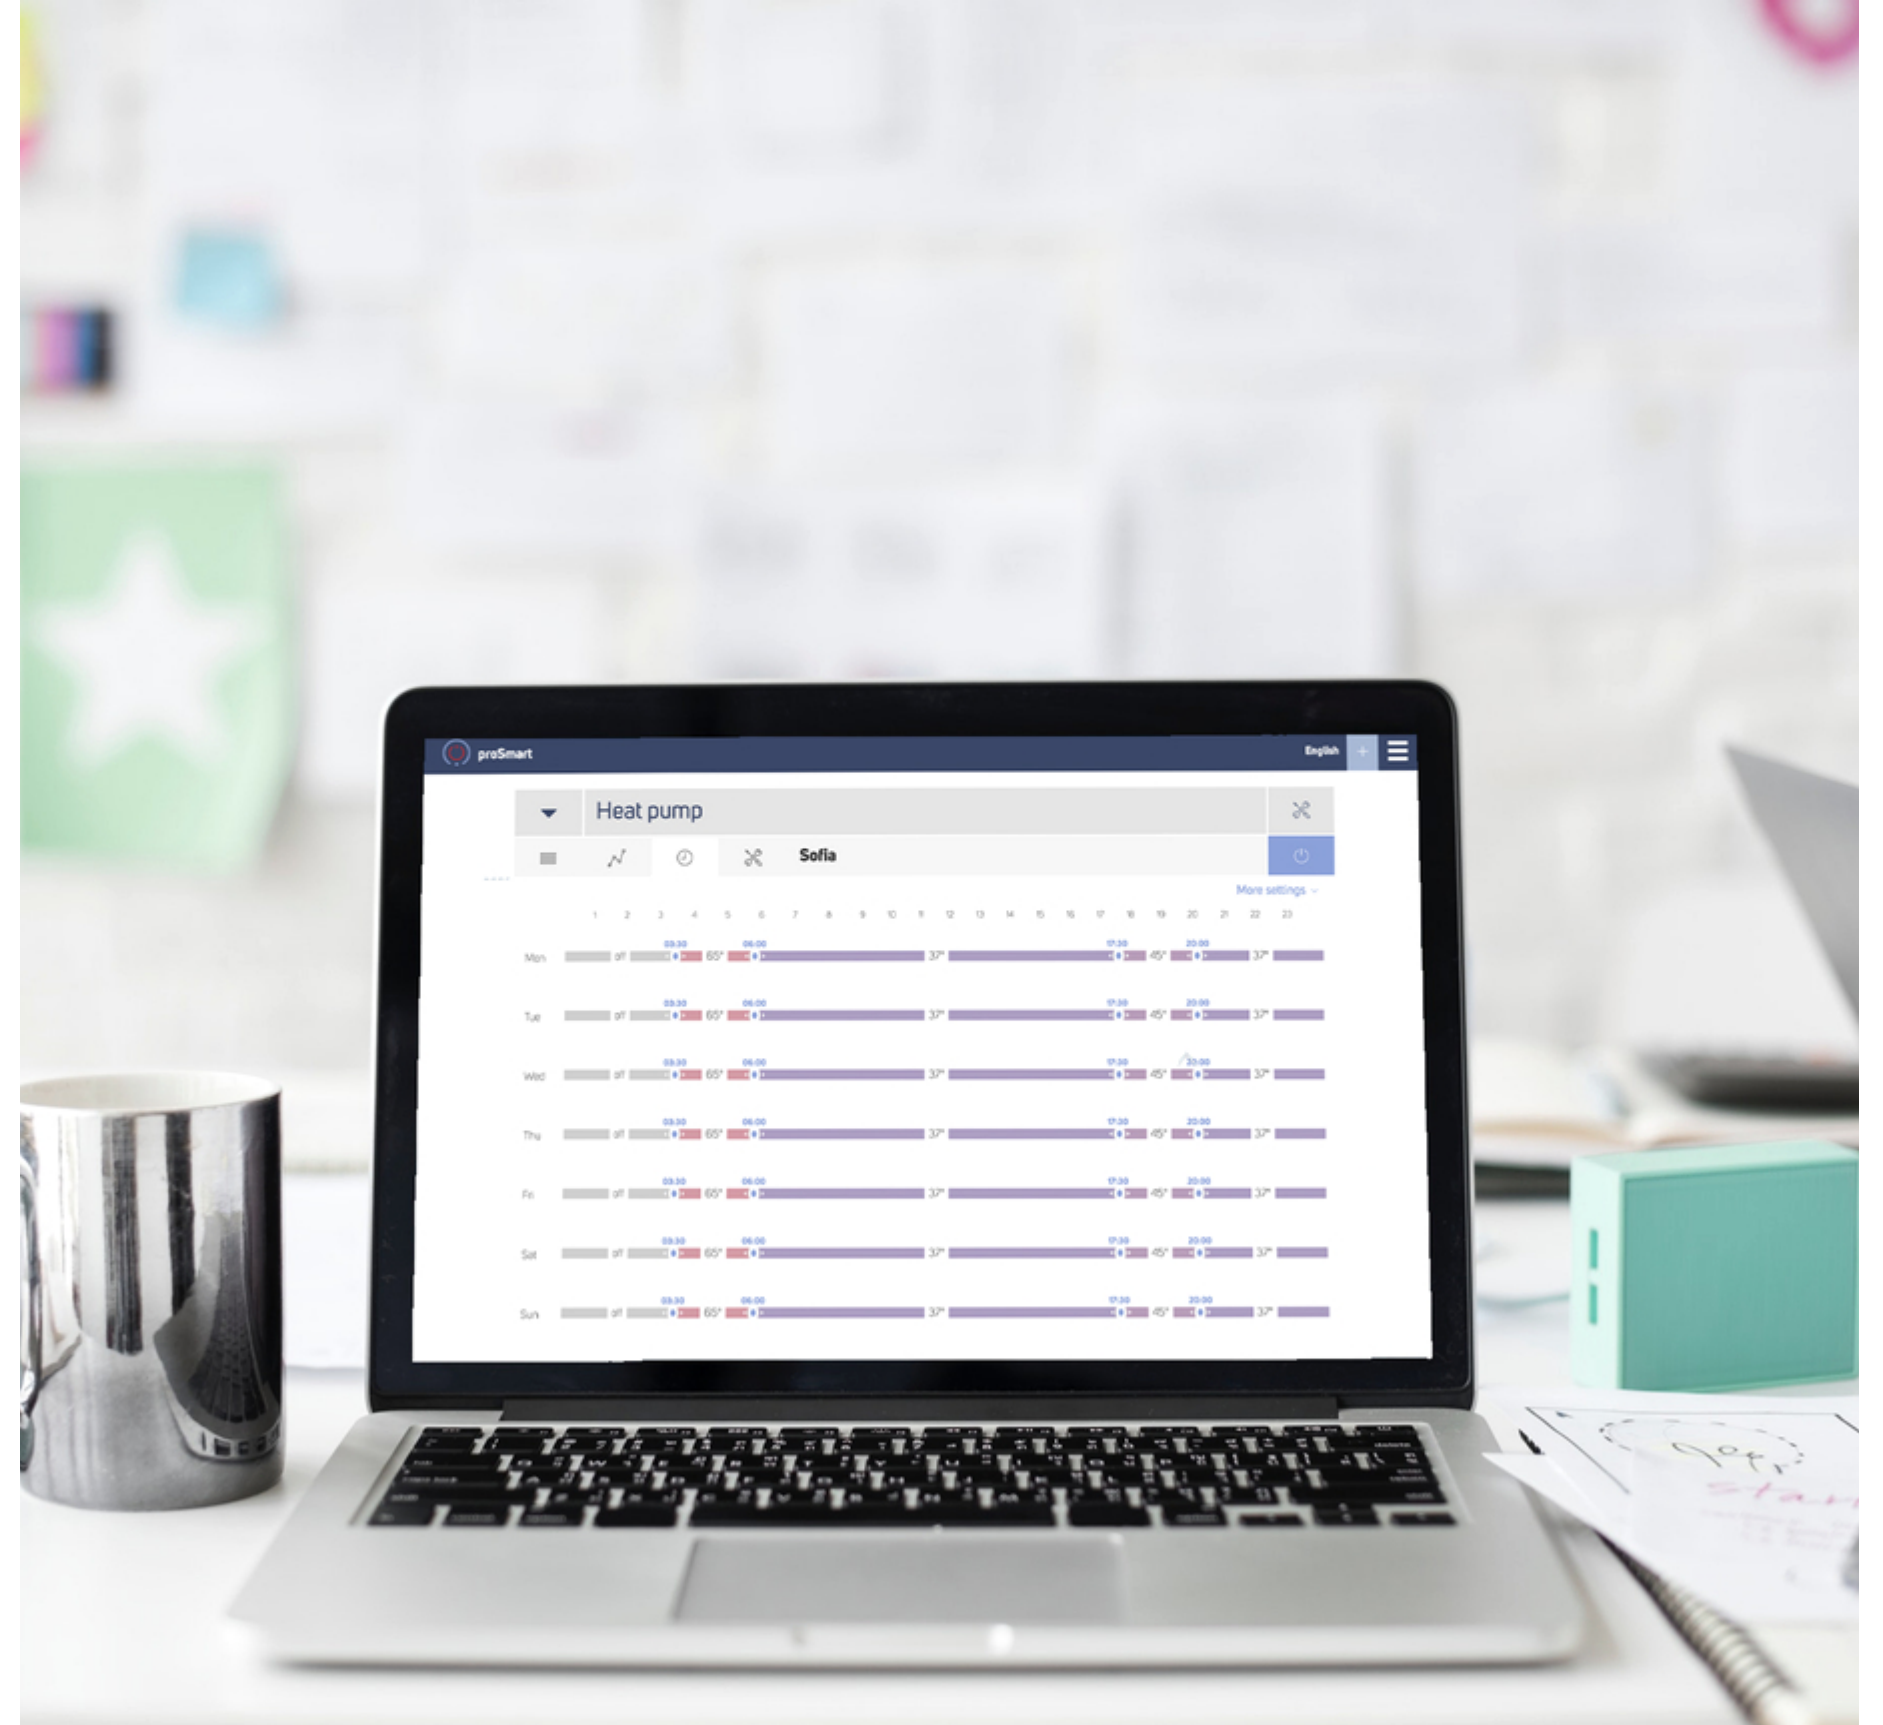

PS Thermo follows your schedule even in a case of Internet outage. Even better, you can change the desired room temperature and user mode directly from the built-in touchscreen.

Easy schedules and pre-set scenarios

Have the right temperature at the right time and save up to 32% from your energy bill. Through our user-friendly app, you can easily create effective schedules that meet your lifestyle. Regular working week? Coming home late? Away for vacation? Save your schedules as templates and be ready for any scenario.
SMART FEATURES

Humidity reading to be fully aware of your home climate

Email alerts for extreme temperature changes

Insightful charts about past temperatures and system status

NOW IT IS EVEN EASIER TO CONNECT YOUR DEVICE TO THE WI-FI

Connect directly to Wi-Fi

Select your preferred Wi-FI network and enter the password directly from the keypad on the touch display

smartConfig mode

Connect your smartphone to the desired Wi-Fi network. Press the smartConfig button and enter your password
AP (Access Point)

Scan the QR code from the display of PS Thermo. Connect your mobile device to the network that PS Thermo created, choose a network and enter a password.

NEXT LEVEL OF HEATING CONTROL

PS Thermo makes your system user-friendly by giving you the power of remote control and real-time information. This way you have an easy and intuitive way to manage your energy efficiently without compromising comfort.

COMFORT CONTROL AT YOUR TERMS

Set your desired temperature with a single click. Control it online and offline. Choose your desired user mode, language preference as well as sound level. See you temperature from any corner or simply check the time by using the built-in clock.
